

RDVM240/RDVM480/RDVM960

MULTI-MESSAGE DIGITAL RECORDING MODULE

Whelen offers verbal messages and musical renditions of various lengths for all Whelen All-Hazard, High Powered Tone and Voice Systems. Advances in technology allow us to meet customer demand for more flexible messaging. Whelen sets the standard with the most technically advanced systems.

STANDARD FEATURES

- From 1 to 16 verbal messages and musical renditions of varying lengths may be programmed into all modules.
- Variable length messages and musical renditions may be stored and repeated (up to FIFTEEN times) without using up additional message time.
- Select musical renditions, including some over one minute in length. They include Taps, Reveille, To The Colors, Retreat and The National Anthem.
- Standard message memory storage is 240, 480 or 960 seconds.
- A short attention-getting prelude can now preface messages.
- All messages are recorded at Whelen under studio conditions and have digitally formatted audio for crystal clear reproduction and intelligibility at full system range. No other manufacturer can equal our clarity.
- Several digitized and conditioned standard messages are available from our library as well as musical renditions. Custom messages are also available.
- New modules are compatible with BOTH ESC2020 configurations and older ESC864 configurations.

BENEFITS

- Clear and effective public address broadcasting.
- With the use of the Digital Voice option, power output during the message broadcast is increased by 25%!!
- Custom messages relate to public warning situations appropriate to YOUR community, with YOUR instructions.
- Playback levels are pre-set for optimum voice broadcasting levels and clarity.
- You provide the text that you want recorded and we program it, or, access our recording library for messages that are already pre-recorded.
- Messages can be imported from any .wav file in any language, however, it has to be recorded in studio-like conditions.

MODELS

- **RDVM240** - 240 second board
- **RDVM240U** - 240 second board, upgrade for older ESC864 configurations
- **RDVM480** - 480 second board
- **RDVM480U** - 480 second board, upgrade for older ESC864 configurations
- **RDVM960** - 960 second board
- **RDVM960U** - 960 second board, upgrade for older ESC864 configurations
